

CONTENTS

A. M. Baranov	
A model of the Reissner-Nordström interior source	5
A. M. Baranov, Eu. V. Saveljev	
Conformally flat model of the open Universe with an arbitrary function of state	21
Yu. G. Ignat'ev	
Thermodynamic equilibrium in the accelerated Universe is not available?	28
V. M. Zhuravlev	
Nonlinear wave equations and first order complex quasilinear equations	56
International Winter School-Seminar on Gravitation, Cosmology and Astrophysics «Peter Readings»	68
