

CONTENTS

K. V. Ivankov	
High-precision fundamental symmetry of the universe in relations between the physical constants	5
A. M. Baranov, Eu. V. Saveljev	
Exact solutions of the conformally flat Universe. II. The linear equation of state and multidimensional space-times	19
A. B. Balakin , L. V. Grunskaya	
Introduction: Axion electrodynamics and gravitational phenomena in the Earth atmosphere	31
L. V. Grunskaya, V. A. Efimov, A. A. Zakirov, A. N. Zolotov, D. V. Rubai, I. A. Leschew	
Infralow frequency electromagnetic fields monitoring	32
V. V. Isakevich, L. V. Grunskaya, D. V. Isakevich	
Detection of Earth electric field components spectrally localized on frequencies of the Lunar tides	43
L. V. Grunskaya, V. V. Isakevich, D. V. Isakevich, L. T. Sushkova	
Detection of Earth electric field components spectrally localized on frequencies of the astrophysical processes	54
A. B. Balakin	
Axion electrodynamics of the Earth atmosphere: Search for signals induced by gravitational waves	72
