

# CONTENTS

<b>Yu. G. Ignat'ev</b>	
Nonequilibrium Kinetics Universe Models. III. Energy-Ballance Model for the Inflation Stage .	5
<b>A. M. Baranov</b>	
Another approach to the algebraic classification of electromagnetic field .....	11
<b>V. T. Volov</b>	
Quasigravitational fields modelling on the super sound swirling gas and plasma flows basis ...	16
<b>N. N. Paklin, M. S. Sokolova</b>	
Symmetries and conservation laws of the gravitation equations in vacuum .....	25
<b>A. I. Dolgarev, I. A. Dolgarev</b>	
Curved spaces with the right-handed rastran .....	37
<b>M. P. Korkina, O. O. Iegurnov</b>	
Cosmological model with perfect fluid and de Sitter universe .....	44
<b>A. B. Balakin, A. E. Zayats</b>	
Nonminimal fied theory: I. Extension of the Einstein-Yang-Mills model .....	51
<b>N. R. Khusnutdinov</b>	
The Abel-Plana formulas .....	71
<b>Yu. G. Ignat'ev</b>	
Lectures on the problems of the modern cosmology read by the actual member of the Russian Scientific Academy Alexey Alexandrovich Starobinsky in the Kazan State University .....	87
