

CONTENTS

Yu. G. Ignat'ev

Nonequilibrium Kinetics Universe Models.

IV. Model of a power balance for a stage with arbitrary acceleration 5

A. P. Yefremov

Bohr's model of H-atom is a solution of Schrödinger equation 20

A. K. Guts

Reality and time machine 29

A. M. Baranov

Generalization of the open cosmological model with radiation 49

L. N. Krivonosov, V. A. Luk'yanov

Solution of Yang-Mills equations for central-symmetric metric

in the presence of electromagnetic field 54

I. R. Mubarakshin

About Newton, conic sections and the inverse-square law 64
